# HISTORY

LaikaCoin was born on 20th April 2021, as a modified Safemoon clone, capitalising on the popularity of meme-coins and the resurgence of Dogecoin. After an explosive start, growing to over 20,000 holders in 3 days and featuring in an article on NASDAQ.com, the original developer abandoned the project, selling 5% of the circulating supply and causing a sell-off which crashed the price. LaikaCoin was dead.

Original LaikaCoin investors have since taken the coin over, re-branding Laika as a charity token and putting its future in the hands of the community.

LaikaCoin was named after the first dog in space. A stray dog from the streets of Moscow, Laika was sent on a suicide mission in a spaceship the size of a washing machine. Strapped in position with chains, Laika endured soaring temperatures for 3 hours before finally passing away, taking her place among the stars.

Laika's legacy endures not only as an important step in man's mission to space, but also as a stark reminder of the continued mistreatment of animals in pursuit of progress.

Our vision is to pay back Laika's sacrifice by giving to charitable institutions which look to serve and protect man's best friend, marrying technological progress with kindness to animals, in a reversal of Laika's story.

# **VALUES**

**LAIKACOIN IS BASED ON THREE CORE VALUES:**

## **COMMUNITY**

Laika is its community. Resurrected by an army of over 50 volunteers all decisions are taken collectively. We take pride in our shared mission and support each other in achieving our goals.

## **CHARITY**

Laika aims to make a real impact in the lives of dogs around the world by giving back, with a desire to forge partnerships with charitable institutions globally.

## **TRANSPARENCY**

Community is nothing without transparency. The Laika community shares information willingly, so that each member has clarity and can pull together to further our aims.

## TECHNOLOGY

### OVERVIEW

The Safemoon Protocol, on which LaikaCoin is based, was borne out of a desire to solve the issue of Impermanent Loss, whilst incentivising holders to maintain a stake in a token. Static rewards, known as "reflection", also help to remove the Ponzi element of a number of DeFi yield farms, where later investors are sucked in by high APY rewards, only to be decimated by the inevitable crash in value of a token, as early investors sell.

To avoid this outcome, LaikaCoin employs three key elements as part of each transaction:

Automatic liquidity generation;  
Autonomous yield generation;  
Burn.

### AUTOMATIC LIQUIDITY GENERATION

This aims to protect the community from large changes in price by creating a solid price floor which creates upwards pressure on the value of the token. As liquidity increases, it also mitigates the impact of large sell-offs by whales, increasing the stability of the price of the token.

### AUTONOMOUS YIELD GENERATION

This function aims to reward holders who maintain their stake in LaikaCoin, by paying a reward each time someone sells. Not only does this reduce the returns on sales, thereby disincentivising swing traders, but removes the issues discussed above where later investors in traditional yield farms are at constant risk of a price crash.

### BURN

Burns have traditionally been used in reflective tokens as a mechanism of arbitrarily reducing the circulating supply at the whim of the developer, with the aim of increasing the price. This has two core issues:

The developer must retain control of the contract to have the power to burn tokens, putting the community at risk of being scammed;

The developer has prior knowledge of burn dates and therefore can take advantage of this by timing token buys just prior to burn announcements.

Security is a key pillar at LaikaCoin, and therefore the burn took place at the outset. This, combined with the Autonomous Yield Generation function, ensures that a percentage of tokens are burned with every transaction, slowly decreasing the circulating supply and adding to the upwards pressure on the token price.

# TOKENOMICS

## DETAILS

Total supply 100,000,000,000,000,000;  
Initial burn: 45,000,000,000,000,000;  
Fair launch supply: 55,000,000,000,000,000

Automatic Liquidity Generation Fees: 5% on each sale  
Autonomous Yield Generation Fees: 3% of each transaction.

## WHY CHANGE SAFEMOON'S FORMULA?

As discussed above, Safemoon's manual burns cause concern around the security and fairness of the token. The other changes to the Safemoon Protocol are a reduction in the yield generation fees from 5% to 3%, and removing the automatic liquidity generation penalties from buyers. These last two changes have an important impact when considering the future success of LaikaCoin. Whilst the automated fees make a lot of sense in a decentralised world, they cause cross-pricing issues when listed on Centralised exchanges, which rely on internal market-making mechanisms to price tokens. A reduction in these fees should reduce the barriers to CEX support and mitigate some of complexities involved in avoiding arbitrage situations.

## SECURITY

Security is hugely important for LaikaCoin holders and our partners in charities, to ensure that all funds are safe. This is achieved in a myriad of ways:

Ownership of the contract has been renounced, protecting the community against nefarious or incompetent changes;

Our contract has been audited by Techrate; the results are available from Techrate's GitHub account here:

<https://github.com/TechRate/Smart-Contract-Audits/blob/main/LaikaCoin%20Full%20Smart%20Contract%20Security%20Audit.pdf>

This found:

No high severity or security issues;

No medium severity issues;

Two low severity issues, relating to potential OUT\_OF\_GAS failures in transactions if there was a long excluded addresses list;

**LONG LIVE LAIKA**

# TOKENOMICS

---

With ownership renounced there is no mechanism for adding addresses to this list, so these issues are practically moot.

Charity and marketing wallets will be protected using Gnosis multi-sig wallets at <https://gnosis-safe.binance.org/> so multiple community members need to sign off on any transactions made;

The initial liquidity provided by the contract developer (6 BNB) is locked until September (proof available here:

<https://dxsale.app/app/pages/dxlockview?id=0&add=0x2E6b66C4770878dBdf0406dF601fca153A6F73B6&type=lplock&chain=BSC>). Practically, due to the Automatic Liquidity Generation, this is now a negligible part of LaikaCoin's Liquidity Pool, which currently stands at 645BNB. This liquidity is owned by the contract itself, and is therefore untouchable.

# TEAM

---

LaikaCoin's community is the team, with members rotating into roles best suited to their abilities as and when needed. Using this method the community can ensure that as requirements change, there will be the resilience and flexibility needed to deliver what's best for LaikaCoin and our partners.

WE  
WANT YOU TO —  
LAIKA ARMY!

**HOLDERS: 26.152**

**MARKETCAP: 1.329.832**

**TRANSFERS: 80.033**

**BURNED SUPPLY: 51.4%**

# ROADMAP

**Q2**

- LAIKACOIN LAUNCH
- LAIKA COMMUNITY RESCUE MISSION
- CMC AND CG LISTINGS
- NEW BRAND IDENTITY
- LAUNCH NFT SALES
- LAUNCH DONATION WALLET FUNDRAISING EFFORTS AND FINANCIAL TEAM
- LAUNCH CHARITY STRATEGY AND CHARITY DONATION WALLET
- LISTING ON SECONDARY DEX
- GROW THE LAIKA ARMY TEAM TO 100 STRONG
- LAUNCH LAIKA MERCH

LIKE A STRAY DOG WANDERING THE STREETS OF MOSCOW, THE LAIKA COMMUNITY IS STILL LICKING ITS WOUNDS AFTER BEING LEFT TO FEND FOR ITSELF. BUT WE FIGHT ON TO THE BEST OF OUR ABILITIES WITH THIS AMBITIOUS ROADMAP FOR 2021.

**Q3**

- LAUNCH ADVERTISING
- LAUNCH LAIKA FARMING
- LAUNCH LAIKA PHYSICAL COIN
- CENTRALIZED EXCHANGE LISTINGS: WHITEBIT, BIKE, BILAXY
- DECENTRALIZED EXCHANGE LISTINGS: UNISWAP, BAMBOORELAY, 1INCH

LAIKA IS COMMUNITY DRIVEN AND SO YOU CAN CONTRIBUTE! GET INVOLVED AND START SHARING YOUR ROADMAP ITEMS WITH THE COMMUNITY.

## MILESTONES

WHILE OTHER COINS MAIN OBJECTIVES REVOLVE AROUND GOING "TO THE MOON", WE ARE HERE TO REMEMBER LAIKA'S SACRIFICE AND HONOUR IT BY PAYING IT BACK. WE ARE STILL CURRENTLY DEFINING OUR CHARITY ROADMAP, BUT WE WOULD VERY MUCH LIKE TO TIE IN THE GROWTH OF THE LAIKACOIN MARKET CAP WITH SUBSTANTIAL DONATIONS TO THE DOG COMMUNITY. HERE IS OUR CURRENT PLAN SO FAR, SUBJECT TO CHANGE AS WE GET IN TOUCH WITH RELEVANT DOG COMMUNITIES.

**5M SPONSOR 5 DOGS  
10M SPONSOR 10 DOGS  
100M SPONSOR 100 DOGS  
1000M SPONSOR 1000 DOGS**

## DISCLAIMERS
